Prodigi is the world's leading print on demand platform.

We help businesses of all sizes sell and dropship custom products worldwide using our print API and global fulfilment network, simplifying their logistics and maximising their profits in the process.

Our software integrates directly with our in-house manufacturing facilities in the UK and mainland Europe, as well as our global network of fulfilment partners.

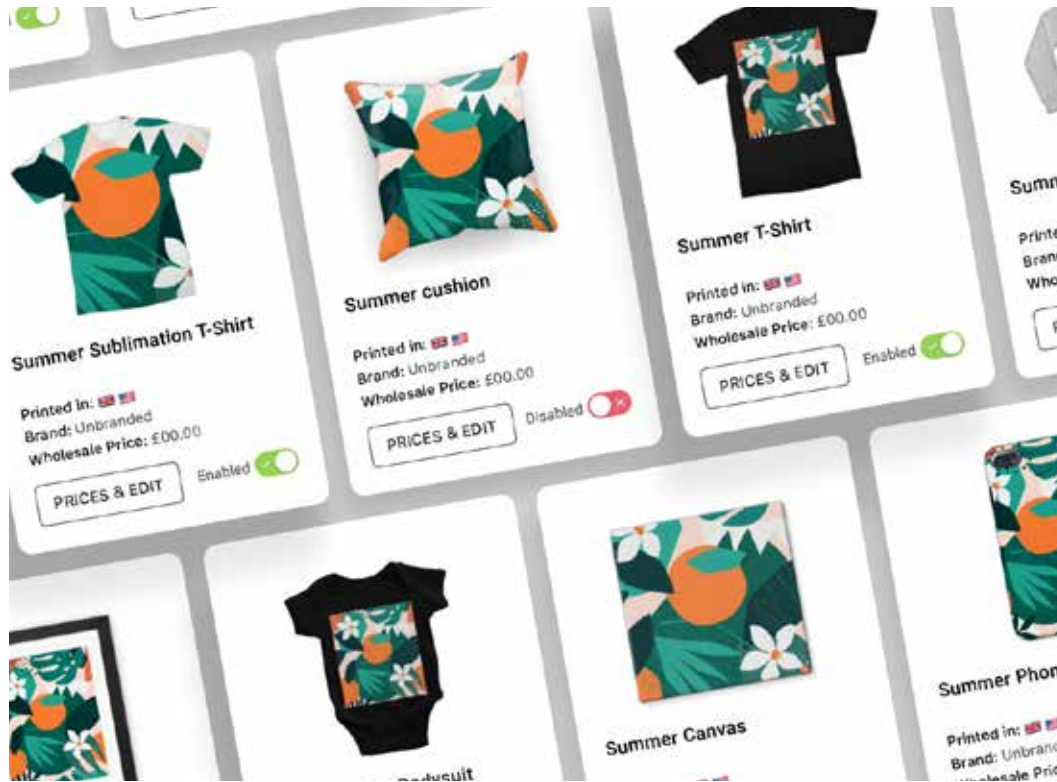

From product sourcing to print and fulfilment, we deal with all the background noise, leaving you free to focus on building your business and brand.

The background features several abstract geometric shapes and patterns. In the top left, there are overlapping pink and light blue shapes. A large, light blue area with a fine dot pattern is on the left side. A dark blue triangle with a red square is in the top right. A red and blue striped pattern is in the bottom left. A yellow circle is partially visible at the bottom center.

Lustré Photo Paper 240gsm

A premium photographic paper with a satin lustre finish. Preferred by professional photographers, the finish provides a subtle pearl-like texture. Supporting deeper colour saturation than matte papers, this stock produces impressive colour depth and strikingly intense blacks.

C-type prints (silver halide) 230-245µm

Our C-types are silver halide colour papers designed exclusively to produce professional colour prints, with a brilliant white base that offers continuous tone and excellent image stability. These premium papers allow for incredible depth and beautifully vibrant colours.

We offer a lustre, gloss or metallic finish.

Hahnemühle Photo Rag 308gsm

A heavy-duty matte paper made of 100% cotton rag with a natural white tone and excellent black saturation. It has a soft texture with a lightly defined felt structure. Popular with professional photographers, this paper produces very high-quality print reproductions.

Stretched canvas

Superior canvas prints designed for trade and retail.

Each custom stretched canvas begins with a 12-colour Giclée print, produced from a choice of substrates. We then make a custom wooden frame - in any size needed up to a maximum of 40" - and stretch the rolled canvas print over it.

We use finger jointed canvas frames to create corner tension which helps to resist warping. For larger sizes, we add wooden 'wedges' to each corner; ensuring the canvas surface remains taut and allowing for easy re-stretching in future years.

- Pro-lab print on demand process with 100+ year colour guarantee
- 38mm canvas frame depth
- Two edge finishing options (white or image wrap)
- Stretcher bars milled from the finest quality European kiln-dried knotless pine
- Tensioning 'wedges' and finger joints
- Handmade by experienced canvas framers

Framed canvas

Transform a standard canvas into a special work of art.

Our superior framed canvas prints feature a 38mm stretched canvas within a traditional picture frame. The simple addition of a wooden picture frame gives a completely different 'look' to your Giclée printed wall art; quite distinct to a standard canvas.

The thin frame sits approximately 5mm from the edge of the canvas helping to create a floating border.

- Superior float frame
- 38mm stretched canvas

Float frame specifications
